Objective

Passionate Full-Stack Developer and Technical Trainer with 3+ years of experience in web development and software project management. Seeking a challenging role where I can build scalable applications, enhance user experiences, and contribute to innovative projects while leveraging my expertise in software development and training.

Education

Bachelor - Information Technology   2021 - 2025

University of Science & Technology, Aden
Relevant Coursework: Problem Solving and Programming, Web Design, Database Systems, OOP, Web Applications Development, Database Administration.

Advanced Diploma - English Language   2020 - 2022

Cambridge Aden Institute

High School Diploma   2018 - 2021

Al-Nawras Private Schools, Aden

Work Experience

Mid-senior Frontend Developer (Remotely)   March 2025 - Present

Smart Life - smartlife.ws

- **Architected and delivered** a production-grade **SaaS frontend** using **Vue 3, Nuxt, and TypeScript**, emphasizing scalability, performance, and maintainability.
- **Designed and implemented full RTL support**, enabling seamless Arabic localization and consistent UX across regional audiences.
- **Enforced strict type safety** through well-structured TypeScript interfaces, significantly reducing runtime errors during dynamic content rendering.
- **Built and scaled "Ataa SaaS"**, a **multi-tenant platform** serving both **Admin Panels and Storefronts** *(saas.ataa.com.sa)*.
- **Developed "Ataa Store"**, a high-performance digital charity platform enabling users to browse donation opportunities, pay Zakat, and manage personal dashboards, with a strong focus on **user trust, secure payments, and mobile-first responsiveness**.
  - Tenant example: *smo.edialoguec.org.sa*
- **Developed the official website of Rokn Al-Hewar** *(edialoguec.org.sa)*, ensuring brand consistency and accessibility.
- **Engineered "Ataa Admin"**, a robust administrative dashboard for managing donation campaigns, gifts, financial reports, and donor data within a high-traffic charity ecosystem.

- **Established a responsive design system** using **Tailwind CSS (Vite)** and standardized typography via **Google Fonts (IBM Plex Sans Arabic)** with @nuxt/fonts.
- **Implemented multilingual support** (Arabic / English) using @nuxtjs/i18n, ensuring wide accessibility and maintainable localization workflows.
- **Optimized Core Web Vitals** by integrating nuxt-svgo for SVG processing and @nuxt/image for automated image optimization.
- **Leveraged VueUse** to efficiently integrate browser APIs and streamline reusable state and composable logic.

Git & GitHub Workshop Trainer   19 Jul 2025, for 6h

Medalah Organization
- Trained +30 trainee on what is, how to use, and what are best practices of Git & GitHub

C++ Programming Language Trainer   Jul 2024 - Aug 2024

Harvard Aden Institute
- Designed and delivered structured C++ training, covering OOP and advanced libraries.

Frontend Development Instructor   Jul 2024 - Aug 2024

Harvard Aden Institute
- Conducted an 80-hour course on HTML, CSS, JavaScript, and Vue.js.
- Guided students through hands-on projects, from basic HTML to full interactive web applications.

AI Prompt Engineering Trainer   Jul 2024

Yemedian, Aden Art Space Project
- Provided training on AI prompt engineering, covering role-based prompting, few-shot techniques, and AI model applications.
- Compiled a comprehensive AI models guide for students.

Full-stack Intern   Jul 2023 - Aug 2023

YOU for IT, Aden – you-it.com
- Optimized Medalah's database, enhancing backend scalability with new table structures and relationship models.
- Improved admin panel UI and added new user management features.

Skills

- **Programming Languages:** JavaScript, TypeScript, PHP.
- **Frameworks & Libraries:** Bootstrap, Tailwind, Sass, Vue, Nuxt, Laravel, React, React Native.
- **Database:** MySQL, SQLite, ORM Tools (Eloquent).
- **Testing:** Cypress, Vitest, PHPUnit, PEST.
- **Tools, Flow & DevOps:** Git, GitHub, CI/CD (GitHub Actions), Markdown.
- **Soft Skills:** Team Leadership, Public Speaking, Training & Mentorship.

Projects

Taraheeb Admin Panel   2025

Frontend Developer

Architected a scalable Enterprise Admin Dashboard using Vue 3, TypeScript, and Vite, managing over 50+ distinct business entities (Flights, Hotels, Visas, Finance) within a modular directory structure.

- Repo: github.com/khateeboveskey/taraheeb-admin (private)
- Demo: taraheeb-admin-testing-demo.vercel.app
- Tech Stack: TypeScript, Vue.

Zameel App Admin   2025

Team Lead & Frontend Developer

- Repo: github.com/khateeboveskey/zameel-admin
- Tech Stack: TypeScript, Vue, Nuxt

Khateeb's Portfolio   2025

Frontend Developer

- Production: khateeb.is-a.dev
- Repo: github.com/khateeboveskey/khateeboveskey.github.io
- Tech Stack: Vue, TypeScript, TailwindCSS

Awam E-Book Library   2024

Full-stack Developer

- Repo: github.com/khateeboveskey/awam-ebooks-library
- Tech Stack: Laravel, TailwindCSS

Mersal CRM API Client   2024

Team Lead & Frontend Developer

- Repo: github.com/khateeboveskey/mersal-crms
- Tech Stack: Vue, TailwindCSS

Balqis Association Website   2023

Frontend Developer

- Production: balqis-association.org
- Repo: github.com/khateeboveskey/balqis-association
- Tech Stack: Vue, TailwindCSS

Morse Code Translator   2023

UI/UX Designer & .NET Developer

- Repo: github.com/khateeboveskey/winform-morse-code-translator
- Tech Stack: Visual C#

Ministry of Health E-Governement Website 2022

Team Lead & Frontend Developer

- Tech Stack: HTML, CSS, JS

Courses

International Computer Driving License (ICDL) 2023

ICDL Foundation

Certificate of Completion - UX Design Course 2023

Edraak

Certificate of Completion - Informational Search Tools Course 2022

Al-Rayan University

Honors & Awards

2nd Place Winner (Local) 2024

UST Aden
Local Robotics Championship

3rd Place Winner (Global) 2021

FIRST® - firstinspires.org
FIRST Global Challenge: Discover & Recover

2nd Place Winner (Arab Regional) 2020

Jubilee Institute
Robotics Arabic Competition

8th Place Winner (Global) 2020

FIRST® - firstinspires.org
FIRST Global Challenge: Connecting Communities

Personal Projects & Experience

Eloquent Speaker

- Delivered a TEDx talk at TEDxSealineRd. More details: ted.com/tedx/events/59542.
- Represented Engineering & Computing College in a University of Science and Technology advertisement.

Pop-science Content Creator

- Writes, records, and edits scientific YouTube videos on Khateebedia.
  Visit: youtube.com/@khateebedia

Technical Blogger

- Publishes articles on AI, programming, and UX design in personal and specialized blogs.
